

## Parameters

Electric Parameter :	
Working voltage	DC48V
Audio input voltage	0.7VPP
Audio output resistance	32Ω
Output resistance	RL=4Ω , RR = 4Ω
Output power	50W×2
Harmonic distortion	<0.05%
SNR	97dB
communication	Audio in/out
	Dry contact in/out
Environmental Condition :	
Working temperature	0°C~45°C
Working relative humidity	40%~98%
Storage temperature	-20°C~+60°C
Storage relative humidity	10%~93%
Approved	
CE	
RoHS	
Production information :	
Dimensions	180×180×33 (mm)
Net Weight	811g
Housing material	Glass , ABS, steel plate
Installation	Desk/ wall hanging / DB Box
Protection degree	IP20

## Important Notes

- Check the connection, avoid any mistake
- Speaker resistance not less 4Ω
- Screw down strength is less than 0.4Nm

## Overview

**HDL-MZAP.20** Audio amplifier, Class-D amplifier, low distortion, wide bandwidth, high efficiency, high power output, with mono and stereo selection, with preset volume.

## Functions

- Class- D audio amplifier
- Preset volume
- Mono / stereo selection
- Standby and working controlled by dry contact.
- Supply power for music play box.
- If need more speaker for big space, can use one more amplifier

## Installation Step

- Connect MZAP.20 to the special Power supply
- Connect MZAP.20 to music play box.
- Check the power supply cable connection
- Check the cable to MZBOX.20, avoid any mistakes of connection

## Dimensions and Wiring

- ① power indicator
- ② mono indicator ,
- ③ volume up
- ④ volume down
- ⑤ lock and indicator , long push 5s will unlock / lock the touch panel .

- ① Audio output , connect to another audio in for another amplifier.
- ② Audio input , connect to audio out of music play box
- ③ Dry contact output, for next amplifier control
- ④ Input of dry contact from music play box for standby and working
- ⑤ Input DC48V
- ⑥ Power indicator
- ⑦ DC48V power supply for music play box.
- ⑧ Terminal + and - for right channel speaker.
- ⑨ Terminal + and - for left channel speaker.

## Safety attention

- Assure a good ventilation circumstances
- Avoid the rain or water into module, it will damage this devices
- Rain, liquid, and aggressive gas are not allowed to close to it
